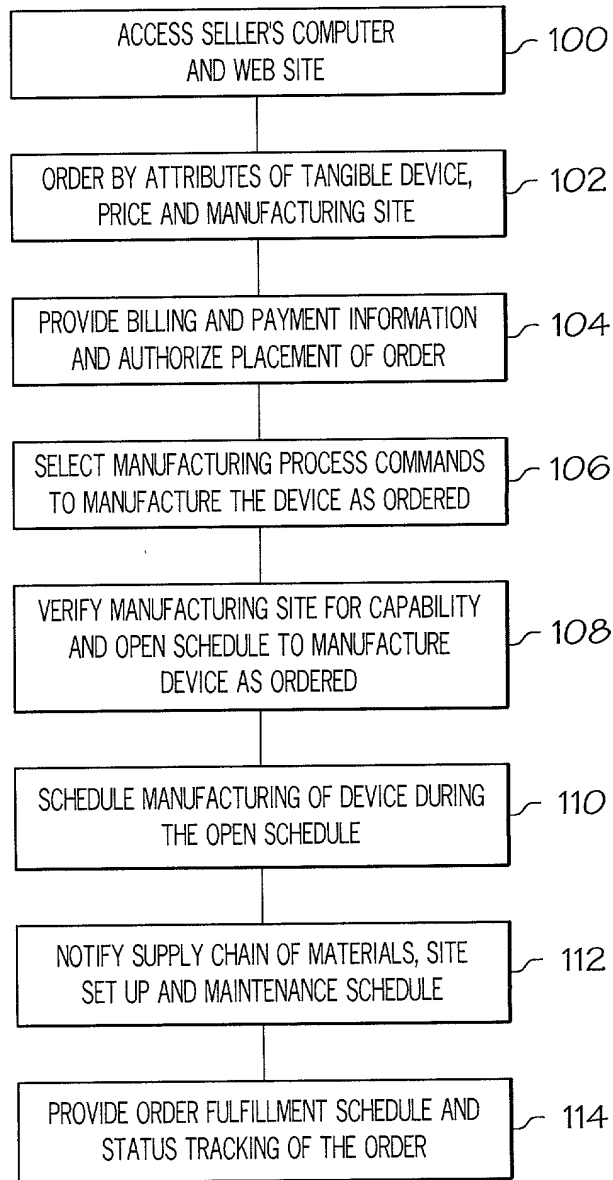

FIG. 1A

FIG. 4

FIG. 5

Figure 1 consists of 15 bar charts, labeled (a) through (o), each representing a different fish species. The y-axis for all charts is 'Percentage of total catch' ranging from 0 to 100. The x-axis for all charts is 'Year' ranging from 1960 to 1990. The species and their approximate percentage of total catch over the years are as follows:

- (a) Atlantic croaker: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (b) Striped bass: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (c) Weakfish: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (d) Spot: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (e) Blue crab: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (f) Rockfish: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (g) Atlantic silverside: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (h) Atlantic herring: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (i) Atlantic menhaden: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (j) Atlantic tomcod: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (k) Atlantic bluefish: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (l) Atlantic sea herring: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (m) Atlantic sand lance: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (n) Atlantic silverside: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)
- (o) Atlantic herring: 1960 (~10%), 1970 (~10%), 1980 (~10%), 1990 (~10%)

Figure 1 consists of 15 bar charts, labeled (a) through (o), each representing a different fish species. The y-axis for all charts is 'Percentage of total catch' and the x-axis is 'Year' from 1960 to 1990. The species and their approximate percentage of total catch are: (a) Atlantic croaker (0-10%), (b) Striped bass (0-100%), (c) Weakfish (0-100%), (d) Spot (0-100%), (e) Blue crab (0-100%), (f) Rockfish (0-100%), (g) Atlantic silverside (0-100%), (h) Atlantic herring (0-100%), (i) Atlantic menhaden (0-100%), (j) Atlantic tomcod (0-100%), (k) Atlantic bluefish (0-100%), (l) Atlantic sea herring (0-100%), (m) Atlantic sand lance (0-100%), (n) Atlantic silverside (0-100%), and (o) Atlantic herring (0-100%). The charts show the relative abundance of each species over time, with some species showing significant fluctuations and others showing more stable populations.
